

Retouching Services

One of the significant advantages of working with digital photographic technology is our ability to manipulate images to create the exact effect that you, the customer, desire.

As a matter of course, Memory Lane Portraits removes extraneous people and debris from all of our portraits. These services are performed at no cost to you, our client.

Additional retouching services, such as adjusting facial or body features or expressions, adding or removing individuals or other more extensive retouching options are available at an additional charge.
